And What Have You

By BOB CRAIG

It has become quite apparent that many, if not most, Hamlin taxpayers have been upset by the increase in their tax valuations by the city. What most of them have failed to realize or at least failed to understand is that the city has adopted the same valuations as the school and county and will lower the tax rate so that the average tax bill will be about the same as before.

There will be some cases where the taxpayer's taxes will be higher under the new system and some will be lower but the intent is for the average to be about the same.

It is doubtful if there ever has been a valuation or rendering system that does not have its flaws but at least under this new system a piece of property will be valued the same by the state, county, school and city. For a number of years now only the city's valuations have been different from the others and this will bring them all in line.

About the only consolation that we can offer you if your city valuations are raised very much (as part of ours were) and your tax bill increases after the rates are lowered, is that you probably have been getting a bargain in the past.

One more honor has been bestowed upon one of our fine high school athletes as Bill Cork has been named to the Texas All State Track Team. Our congratulations to Bill on this high honor. Apparently from reading the AP newstory, Bill and only one other boy from all of West Texas was so honored.

For the first time in the more than 13 years that we have published the Herald, we are planning to combine two issues in July so that our family and our employees can take a full vacation. We will publish one issue the week of July 5 and will not publish again until July 19.

While we know that this will cause a few problems for both our readers and our advertisers we hope that you will be understanding.

For the past 13 years our family has settled for four-and-five-day vacations after we have gotten the paper out and we have worked short-handed so that others on our staff could have a vacation.

Not only will the two issues be combined but our printing department will be closed from July 1 through July 15. We hope that you will be able to order ahead any printing that you will need during that time. The office supply and business office will be closed only during the week of July 9 to 13.

Jones County Commissioners delayed taking any action on the proposed Mental Health Clinic being suggested by a large group of the county's citizens. Apparently, the Commissioners delayed action on the matter because the people of Hamlin and others over the county were not informed about the clinic until just recently.

From what I can tell at this point, it would appear that most recognize the need for such a clinic which would serve as an out-patient clinic at Big Spring. The two problems holding up the action seem to be: where to locate and the money.

Naturally, since it would generate a little income, everyone seems to want it located in their community. We would like to see it located in Hamlin but in all honesty we find it hard to make a very good case for it here. While the logical place might be in Anson, we would have to favor Stamford for the simple reason they are the ones who have done all the work in getting the county eligible

County Delays Any Action On Mental Health Clinic

A request by a Hamlin resident for that area to have more time to gather information brought about a delay in consideration by the Jones County Commissioners court June 11 on the question of funding a mental health clinic for the county.

The Rev. Marshall Stewart, pastor of the Hamlin Nazarene Church, said his community knew nothing about the proposal and he thought it would be better if no action was taken at this time.

Joe Ford, Hamlin mayor, said he had learned only last week of the plan and said that although he knew little he would not oppose the establishment of the clinic.

The Rev. Larry Thomas represented Stamford at the hearing. He answered many of the questions which came up and explained that Stamford had offered a building — the old clinic — along with necessary equipment.

Dalrus Dean and Mrs. Gerry Locke, manager of the Anson Chamber of Commerce, appeared in favor of the proposal and said that Anson was prepared to offer a building.

Thirty days ago, a large delegation from Stamford and Anson appeared before the commissioners, asking that the county request that a clinic be set up in the county. Tad Corbett, director of outreach for the Big Spring state hospital, was present at the meeting and outlined what the clinic would offer the citizens of the county and the costs involved.

As an outgrowth of this meeting, Commissioners Tom Boyd and P. A. Lynn went with County Judge Leon Thurman to visit the clinic at Sweetwater.

They reported they were impressed with the work being done there but were surprised that during the time they were present, no patients showed up.

Ford wanted to know who sets up standards for the buildings and who does the hiring. To both questions he was told this was done by the outreach department of the hospital. In most instances local people are employed. At Sweetwater, it was explained, the clinic occupies seven rooms in an old bank building now owned by the county.

The question was asked as to whether or not people from Jones County can go to other counties and Lynn reported that he had learned that several from Hawley had been going to Sweetwater. Thomas said that

several from Stamford had gone to Haskell but their work load is too heavy to care for any out of county patients.

Haskell also is in another district, it was brought out, Haskell being in Wichita Falls or what is known as the Vernon District while Jones is in the Big Spring district.

Stewart emphasized that he was not opposed to the clinic but he did want more information. He said he was not altogether pleased with work being done at Big Spring but was told he needed to look at work being done by the outreach clinics.

Stewart did suggest that the clinic would reach people before they get to the point where they need to go to the state hospital and that the clinics would help with these people after they return home.

Commissioner Boyd of Stamford said that often a person can be released from a state hospital if there is an outreach clinic to which they can go for treatment.

The legislature apparently is sold on the program, Thomas pointed out because they have doubled the amount of money allocated for this purpose in the next two years.

Commissioner J. E. Touchstone said he had received calls from people who were opposed to the clinic. He said the court has been asked by the grand jury to name deputy sheriffs for Hamlin and for

Stamford and this would cost a lot of money.

"We try to hold down taxes for the people but if we do all the things we are asked to do, we can't do this," he said. "Approving the clinic would open the door to many other things," he concluded.

Thomas replied that it simply is a matter of priorities and that many people favor the clinic and it would be of benefit to many people.

Stewart voiced the opinion that apparently a lot of work has been done on the project but it appeared that Hamlin came in a little late. Thomas then explained that much preliminary work had to be done to get a clinic approved for the county. This has been done and the target date is Sept. 1 for getting the clinic in operation.

It was explained by Judge Thurman that Corbett had recommended that a committee of two persons from each of the three major communities be named with Corbett being the seventh person. This committee would select the site.

"Because I imagine I will send the majority of persons to the clinic and because my office is in Anson, I probably would favor Anson," the judge said.

DOWN FROM \$1.50—

City Council Sets Tax Rate At \$1.20

The Hamlin City Council voted Monday evening to lower the city's tax rate from \$1.50 to \$1.20 per hundred valuation. In previous action the city council voted to adopt the valuation system used by the Hamlin Independent School District and to increase the valuation from 36 percent to 50 percent.

During the past week the Board of Equalization sent out notices to property owners indicating this increase in valuation. Both Mayor Joe Ford and City Tax Assessor Johnny Steele said this week that a great many citizens have expressed their concern over the increase in valuations.

But, both men pointed out that in most cases there would be very little if any increase in taxes with the lower rate. Mayor Ford said that it was necessary for the city to adopt the same values as the school district for the two taxing agencies to combine their tax offices. He pointed out that this should ultimately bring about a saving to both the city and school taxpayers.

A random check of several pieces of property within the city showed some increasing as much as \$14.58 and others lowered as much as \$4.29.

The amount of taxes on the property is figured by multiplying the old valuation by \$1.50 and the new valuation by \$1.20. The difference between the two figures is the amount the taxes will go up or down.

One piece of property picked at random was valued at \$3,630 and was increased to \$4,470.

Last year's taxes on this property were \$54.45 and the taxes this year will be \$53.64, a net decrease of 81 cents. Another piece of property was valued at \$5,040 and was increased to \$7,515. The taxes were \$75.60 and will be \$90.18, an increase of \$14.58.

In another case the old valuation was \$6,050 and the new valuation is \$7,205. In this case the taxes will be lowered

from \$90.75 to \$86.46, a net decrease of \$4.29.

Overall, the city will receive about 10 percent more income under the new valuations and rate than it did under the old valuation and rate. Mayor Ford said that this would about make up for increases needed in the city's budget for the coming year caused by rising costs, wages and other inflationary expenses.

Governor Signs Hospital Bills

Gov. Dolph Briscoe Saturday signed into law the three Jones County Hospital District bills. His signature on the bills Saturday ended the first phase of a long struggle to divide Jones County into three hospital districts.

The next phase of the campaign will be an election, probably to be called this fall, at which time the voters will decide if they want to create the districts. Each of the three districts will hold separate elections and each district will stand or fall independent of the other districts.

The three bills, Senate Bills 449, 450 and 448 by Sen. Jack Hightower of Vernon, passed the House near the end of the

term and have been on the Governor's desk awaiting his signature since that time.

Gov. Briscoe also signed into law Senate Bill 447, also by Jack Hightower, to create the Fisher County hospital district. He signed this bill on Friday.

Both the Hamlin and Anson bills became effective immediately following the Governor's signature but the Stamford district bill does not become effective until Aug. 27. The Hamlin and Anson bills would create new districts while the Stamford bill is to enlarge an existing district.

FROM THE FILES . . .

FIFTY YEARS AGO
(June 22, 1923)

It has been the custom of the Hamlin Luncheon Club to eat everything in sight, but the past Tuesday they "Hubbed too much." Some of those fellows actually tried to do their accustomed duty and in spite of their heroic efforts, had to leave the table with a regretful sigh. The luncheon should be called a feast, for that's what it was.

An outline of a tentative program that will be given in Hamlin on July 4, under the auspices of the American Legion, Luncheon Club and the Woman's Literary Club has been handed to the Herald. There will be a parade on Central Avenue, a Pageant of Nations and a Sing Song.

F. E. Howard, County Secretary, has announced that the Farm Labor Union of America will give a barbecue dinner at Boyd's Chapel on July 16. Will Glidewell and J. F. Mason will speak for the Union and the rail road people will have a speaker also. Howard desires that everybody keep this date in mind and come to Boyd's Chapel on July 16, as hungry as possible and get a good barbecue dinner.

TWENTY YEARS AGO
(June 26, 1953)

Jones County 4-H Crop Judging team left Wednesday, June 24 for Texas A & M College for the state judging elimination to be held there June 25. A. H. and Jimmy Roberts of Anson and Johnny Muehlstein and Hollis Lindsey of Avoca make up the team. These boys will receive an expense-paid trip, courtesy of the Chambers of Commerce of Anson, Hamlin and Stamford. The group will leave College Station on Friday, June 26, following breakfast.

Hot summer weather of the past several days has not caused any let-up in the oil operations of the Hamlin territory as new wells continue to spot the production picture and new prospectors appear on the horizons.

Swenson Avenue Baptist Church in Stamford will be host to the Haskell and Jones County Singing on Sunday afternoon, June 28, at 2 p.m. The public is cordially invited to attend.

With most of Hamlin's Clean-up Week behind them, Hamlin citizens this week were looking back on several days of rubbish gathering, weed chopping and raking, fly and mosquito breeding places eliminated and other moves generally to make war on filth that promises to give the community a better record for cleanliness, an improved health picture and certainly a better appearance. Leaders of the drive pointed out that still much work can be done in the clean-up before it ends Saturday night.

TEN YEARS AGO
(June 20, 1963)

Our five-digit ZIP Code is 79520. Postmaster Perry Sparks announced today. Everyone in Hamlin will use ZIP Code on all their mail to speed mail deliveries and reduce the chance of missent mail. ZIP Code, the Post Office Department's revolutionary new system of improved mail dispatch and delivery, goes into effect nationally on July 1.

Rainfall this week amounted to 2.80 inches gauged at the city pump station. The reading Monday morning was 1.41 and Wednesday morning reading was 1.39.

The fifth annual rodeo sponsored by the Hamlin Riding Club was well attended and weather conditions were ideal for the three-nights event held last weekend.

The annual Jaycee Tennis Tournament will open here Friday with play through Sunday in three divisions. The divisions are junior high, high school and open. The winners of the 16-18 division will have their entry fee paid at the state tournament to be held in Rosenberg in July.

Two teachers have been hired for the coming school term, according to Superintendent C. F. Cook. Hired were Mrs. H. D. Stallcup and Mrs. Jimmy L. Huff. Both were hired to fill vacancies created since the end of school.

and apparently have the doctors and other workers interested in supporting the clinic.

As far as the money goes, the cost figures we have seen indicate that it would cost the county between \$2500 and \$5000 a year with the state picking up the balance. It would appear that the clinic could generate more income in the county that would offset this cost.

One of the commissioners opposed the issue on the grounds that the county needs to spend money elsewhere and the commissioners are trying to hold down taxes and this would just open the door to many other things. Possibly this is true, but we couldn't help but notice that the county has spent \$2500 in revenue sharing money to light the courthouse on the outside. And on top of that will be spending 16 cents an hour to keep it lighted.

While we don't oppose the lighting of the courthouse so much, we just wonder about some people's priorities.

Neinda Philosopher Knows Why China And Russia Aren't Producing Enough

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One thinks he has discovered Russia's and China's agricultural blunder, his letter this week reveals.

Dear editor:

As I understand it, America's reserve supplies of farm products are now down to their lowest in many years, mainly because we've been selling a lot of the stuff abroad, particularly to Russia and China.

I have long wondered, why is it that Russia and China, with as much farm land as we've got, can't produce enough to feed themselves?

I have now found out. According to an article I read in a copy of Newsweek I bought last week because it had a picture of a horse on the cover — I remember saying to myself, you mean they've got horses involved in the Watergate mess now? — to continue, according to it, China's leaders for example for years have been sending city people such as school teachers, office workers, lawyers, newspaper people and such like out to help work the land.

There you are. There's the answer. If you want to hold crop production down, just turn your farm over to a bunch of city people. Put a banker in charge of maintaining your tractor, a school teacher in charge of

Services Held For Mrs. Berry

Mrs. W. D. Berry, 84, mother of Mrs. Paul Cooper, died at 6 p.m. June 13 in Fisher County Nursing Home where she had been a resident for three months.

Funeral was held at 3 p.m. in First Baptist Church of Rotan. The Rev. Howard Jones, pastor of First Baptist Church here, assisted the Rev. Fred Thomas, Rotan pastor, in the services.

Survivors include five daughters, Mrs. Morris Jean of Abilene, Mrs. M. E. Long of Ft. Worth, Mrs. Cooper, Mrs. Carl Land of Burleson and Mrs. Jim Pierce of Charlotte, N. C.; three sons, Blair of Rotan, Doyle of Mineral Wells and Gerald of Hurst; six sisters; 28 grandchildren, 31 great-grandchildren; and one great-great-grandchild.

planting, an insurance man in charge of plowing, some college kids in charge of hoeing, a city councilman in charge of fertilizing, a newspaper man in charge of harvesting, a lawyer in charge of sales, and I guarantee you won't add a thing to the nation's farm surplus.

On the other hand of course if you put farmers in charge of running cities, what would you come up with? Probably with cities like New York or Chicago that are facing bankruptcy and clamoring for more Federal aid.

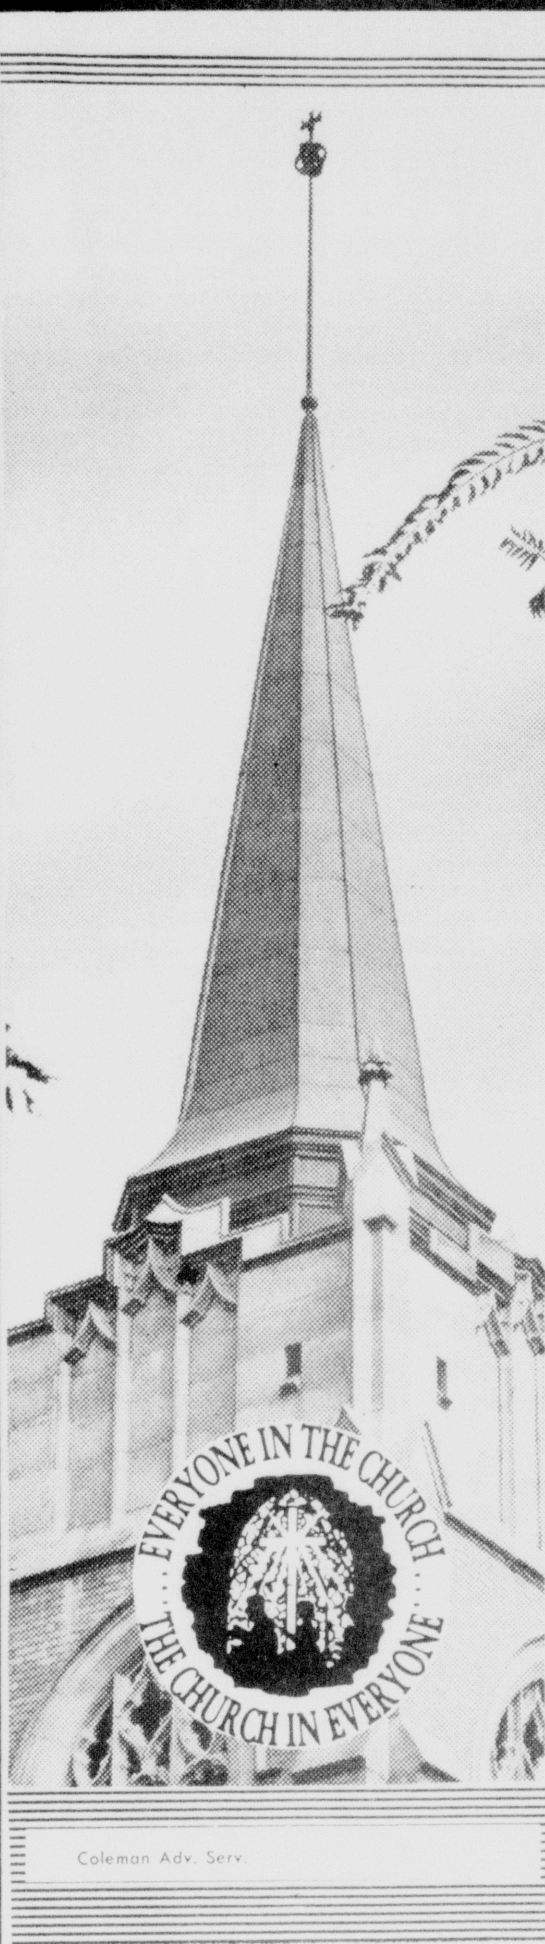

Yours faithfully,
J.A.

A PLACE TO PRAY

Man can, and should, pray anywhere. God has placed no limitations on his communing with him.

Our Lord has said, "... Ask and ye shall receive." God listens when we seek him, no matter where, however he desires that we gather together in prayer too. "... mine house shall be called an house of prayer for all people."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

THE FAMILY LAWYER

Robbed At Work

Hired as floor manager in a department store, Phyllis asked where she should leave her new fur coat during working hours. Since there were no more lockers available, she was told to leave the coat in a corridor closet.

A few days later, the coat was stolen from the closet. The store denied any responsibility for the loss, but Phyllis—unconvinced—took the matter to court.

At the hearing, the company said it had never guaranteed its employees against theft. But it seems the closet had neither lock nor guard. Finding a lack of reasonable care, the court said the company would have to make good the loss.

It is common for employees to deposit clothing and other personal belongings in company facilities while at work.

As a rule, the company must provide reasonable safekeeping if—as in Phyllis' case—the employee has been instructed to put the article in a particular place. This creates a "bailment" relationship, with a legal duty imposed on the company as the "bailee."

But the duty is not unlimited. In another case, also involving a stolen coat, the clothes closet was within a locked enclosure to which only employees had access. A court ruled that the company had made a reasonable effort to prevent theft, hence could not be held liable.

Of course, some responsibility rests upon the employee as well. A toolmaker who owned his own tools often left them overnight on his work bench. Right above the bench was a broken skylight. One night a thief climbed in through the skylight and decamped with the tools.

Could the company be blamed for the loss because of the broken skylight? A court said no, because the toolmaker himself was aware of the danger. By leaving his tools in such an accessible place, said the judge, he had "assumed the risk" of their being stolen.

You can't see the smoke for the clouds

Not long ago these giant stacks were belching vast clouds of pollutants. But electric precipitators now scrub the smoke inside the stacks and clear the air above them. Ecology needs electricity. Clean low-cost power from the rural electric cooperative is a vast rural resource which contributes to a cleaner rural environment while Helping Texas Grow.
